Education

Indian Institute of Technology (IIT) Roorkee

Bachelor of Technology (B.Tech), Electronics and Communication Engineering

2019 - 2023

CGPA: 8.75 / 10

Experience

Refyne India

April 2025 – Present

Software Development Engineer - II (SDE-2)

Bangalore, India

- Developed an idempotent **payout system** using factory design pattern supporting **1M** daily transactions.
- Architected **underwriting** infrastructure in 8 weeks using composite design pattern and decision trees resulting in **700ms** reduction in response time.
- Built an MCP powered **AI Agent** to fetch underwriting execution logs supporting autonomous risk-team queries and reducing on-call tickets by 65%.
- Engineered a scalable, event-driven **microservice** for the **Account Aggregator** system from scratch; assisting underwriting decisions to achieve a **2% reduction in NPA**.
- Built a credit bureau orchestrator, accelerating vendor integration by leveraging a **RAG** pipeline to parse complex documentation backed by **700+** unit tests and integration tests.

Rigi

April 2024 – March 2025

Software Development Engineer

Bangalore, India

- Developed the backend for **Gameshow**, where SEBI-registered experts share trades, and the expert with the highest returns wins each weekly edition, contributing to the app reaching **1M DAU** within 40 days of launch.
- Designed Sanket, an in-house notification service delivering alert webhooks across GapUp microservices.
- Implemented backend of the reward-system ledger, increasing user engagement by **14%**.

Scalnut

April 2023 – April 2024

Software Development Engineer

Gurgaon, India

- Designed and built the **backend** of the Traffic Analyser module to provide insights and inventory of page performance, managing data for more than **50k** domains and implementing cron jobs to provide refresh functionality.
- Engineered the **system architecture** for Webtune AI to improve domains' SEO score by publishing real-time updates.
- Received recognition as the **Star Performer of the Month** (September 2023).

Internships

Twilio

May 2022 – July 2022

Software Development Engineer Intern

Bangalore, India

- Executed a proof-of-concept on AWS Glue & used Docker image to run all the 3 steps of **ETL jobs** in AWS Glue.
- Performed real-time stateful streaming of 6k+ events per hour to implement a conversation hold-time calculator metric.

Pibit.ai

Dec 2020 – Jan 2021

Software Development Engineer Intern

Remote

- Revamped the frontend architecture in ReactJS, developing 7 reusable UI components, accelerating future rollouts.
- Enhanced image analysis by adding features like zooming and custom pagination, reducing TAT by **30%**.

Projects

Deep Learning Assisted Self-Interference Suppression | IIT Roorkee

Jan 2022 – May 2022

- Worked under **Professor Abhay Kumar Sah** to mitigate the effect of self-interference by 87% by employing the deep-learning-based TID method (Time-Invariant nonlinear Distortion).
- Introduced non-linearity in relay with a **3rd order** cubic polynomial in the Parallel Hammerstein model.

Technical Skills

Languages & Tools: C++, Node.js, TypeScript, Python, Next.js, JavaScript, GraphQL, AWS, Redis, Kafka, Git, PostgreSQL, MongoDB, FastAPI, Data Structures and Algorithms, Object Oriented Programming, System Design

Certifications: [Generative AI](#), [NPTEL Networks](#), [Agile at Work](#)

Soft Skills: Communication, Collaboration, Problem Solving, Adaptability, Ownership, Integrity

Awards & Achievements

- Secured a Global rank **158** among **11,007** participants in Codechef Contest May LunchTime 2021
- Secured the **1st** rank in the district and the **3rd** rank in the Bundelkhand region with **96%** in class XII in 2018.
